

Johnny Jefferson Nascimento Souto

Software Engineer with an emphasis on Generative AI and AWS Cloud

+55 11 99703 7799 | johnnyjns@gmail.com | [Linked In](#) | [GitHub](#) | [Website](#)

I am an IT professional with over 20 years of experience, with a career spanning operations, systems support, databases, front-end, back-end, business analysis and consulting, at companies such as Nielsen, Vivo, Coca-Cola, Santander and TOTVS. I have seen technology evolve up close, from batch processing and data administration to web applications and DevOps pipelines. Today, at TOTVS, I contribute to front-end development using Angular and generative AI, and I am enthusiastic about living through the era of Cloud, Data and AI.

OBJECTIVE

To work as a Software Engineer and/or in related fields.

SOFT SKILLS

- Analytical and organized profile
 - Strong teamwork skills and collaboration across multiple teams
 - Technical leadership and support for adopting best practices
 - Excellent verbal and written communication
 - Focus on standardization, governance and continuous improvement
-

HARD SKILLS

Languages & Back-end / Front-end

- Python, Java, Spring Boot, APIs RESTful (OpenAPI/Swagger)
- Angular Framework, Javascript / Typescript, React, HTML, CSS, Figma

Cloud & Data

- AWS (EC2, S3, IAM, VPC, RDS, CloudFront, Lightsail)
- Azure (File Sharing, Data Factory, Databricks)
- SQL Language (T-SQL, queries, procedures, triggers, functions)

DevOps & QA

- CI/CD (GitHub Actions, GitLab CI)
- Quality and security: SonarQube, Fortify
- Git, GitHub, DevOps practices, Agile (Scrum, Kanban)

CRM & Integrations

- Salesforce CRM (administration and integrations)
- Systems integration (REST APIs, databases, cloud)

Business Analysis

- Requirements gathering
- Functional analysis
- Definition of business rules
- Creation of reports and dashboards for sales and management areas

PROFESSIONAL EXPERIENCE

Front-end Developer - TOTVS

March 2026 – Present | Hybrid - São Paulo

- Front-end software development with Angular and Claude generative AI
- Work on T-Cloud, the TOTVS cloud platform that simplifies cloud adoption for customers
- API integration and development of reusable components
- Deployment with GitHub Actions

IT Analyst (DevOps) - Santander

June 2024 – January 2026 | Hybrid - São Paulo

- Support for the Gluon platform, Santander Group's global initiative to standardize and modernize the bank's applications
- Helping teams adopt CI/CD pipelines with GitHub Actions
- Integration of code quality and security tools such as SonarQube and Fortify
- Management and structuring of GitHub repositories, promoting code standardization and pipeline governance

Systems Consultant - Capgemini

June 2021 – January 2024 | Remote - Barueri

Main client: **Coca-Cola FEMSA**

- SQL, SAP and Salesforce data administration
- Data management through formulas and dynamic charts
- Control of technical documentation for the Pitcher project
- Employee training

Systems Support Analyst (OSS - SOC) - Vivo

August 2017 – May 2021 | Hybrid - São Paulo

- System access administration
- Corporate user access management
- Command configuration on Huawei MBB / Ciena OneControl / Padtec network systems
- Administration and scripting for Oracle Database
- Monitoring and maintenance of performance applications
- CDROne / DBN0 / Altaia / Cricket

Front-end Developer - Telefonica Educação Digital

August 2015 – July 2017 | On-site - São Paulo

- Coding of e-learning courses
- HTML5 / CSS3 / JavaScript / ActionScript / jQuery / PIXI.js / Node.js
- Code versioning with GitLab / GitKraken

Computer Operator - Nielsen

January 2006 – September 2013 | On-site - Cotia

- ARCServe Backup / Retail Index / Scantrack
 - Backup media administration and control
 - Batch processing and MS-SQL Server stored procedures
-

PROJECTS

Pitcher App - Coca-Cola FEMSA

June 2021 – October 2023

Coca-Cola FEMSA replaced the MfCoke app with Pitcher App to streamline the daily work of its sales promoters. I was responsible for the rollout: integrating the databases (MS-SQL Server and SAP), managing customer information in Salesforce with formulas and dynamic charts, and installing and configuring the app on the devices of more than 3,000 employees. The data collected feeds graphical reports that speed up decision-making.

ProFuturo - Telefônica Educação Digital

August 2015 – July 2017

A preschool and elementary education system delivered on tablets to children around the world, with interactive screens and available in several languages. I built the front-end with HTML5, CSS3 and JavaScript and, to improve performance, we migrated from jQuery to plain JavaScript with PIXI.js. We created an API with the project features and templates that sped up production, automated tasks with Grunt and versioned the code on GitLab.

EDUCATION

Postgraduate | Software Architecture, Data Science and Cybersecurity

PUC-Campinas | January 2026 - July 2027 (Expected completion)

Associate Degree (Technologist) | Information Technology Management

Universidade Nove de Julho (UNINOVE) | July 2014 - January 2017

CERTIFICATION

- AWS Certified Cloud Practitioner (Foundational) - [Credly](#).

FREE COURSES

- Front-end, Back-End, DevOps (Alura) - more courses [here](#).
- Cloud Services Deployment - AWS Cloud Practitioner Foundational ([SENAI SP](#)).

LANGUAGES

- English and Spanish intermediate.
